## DEDICATION

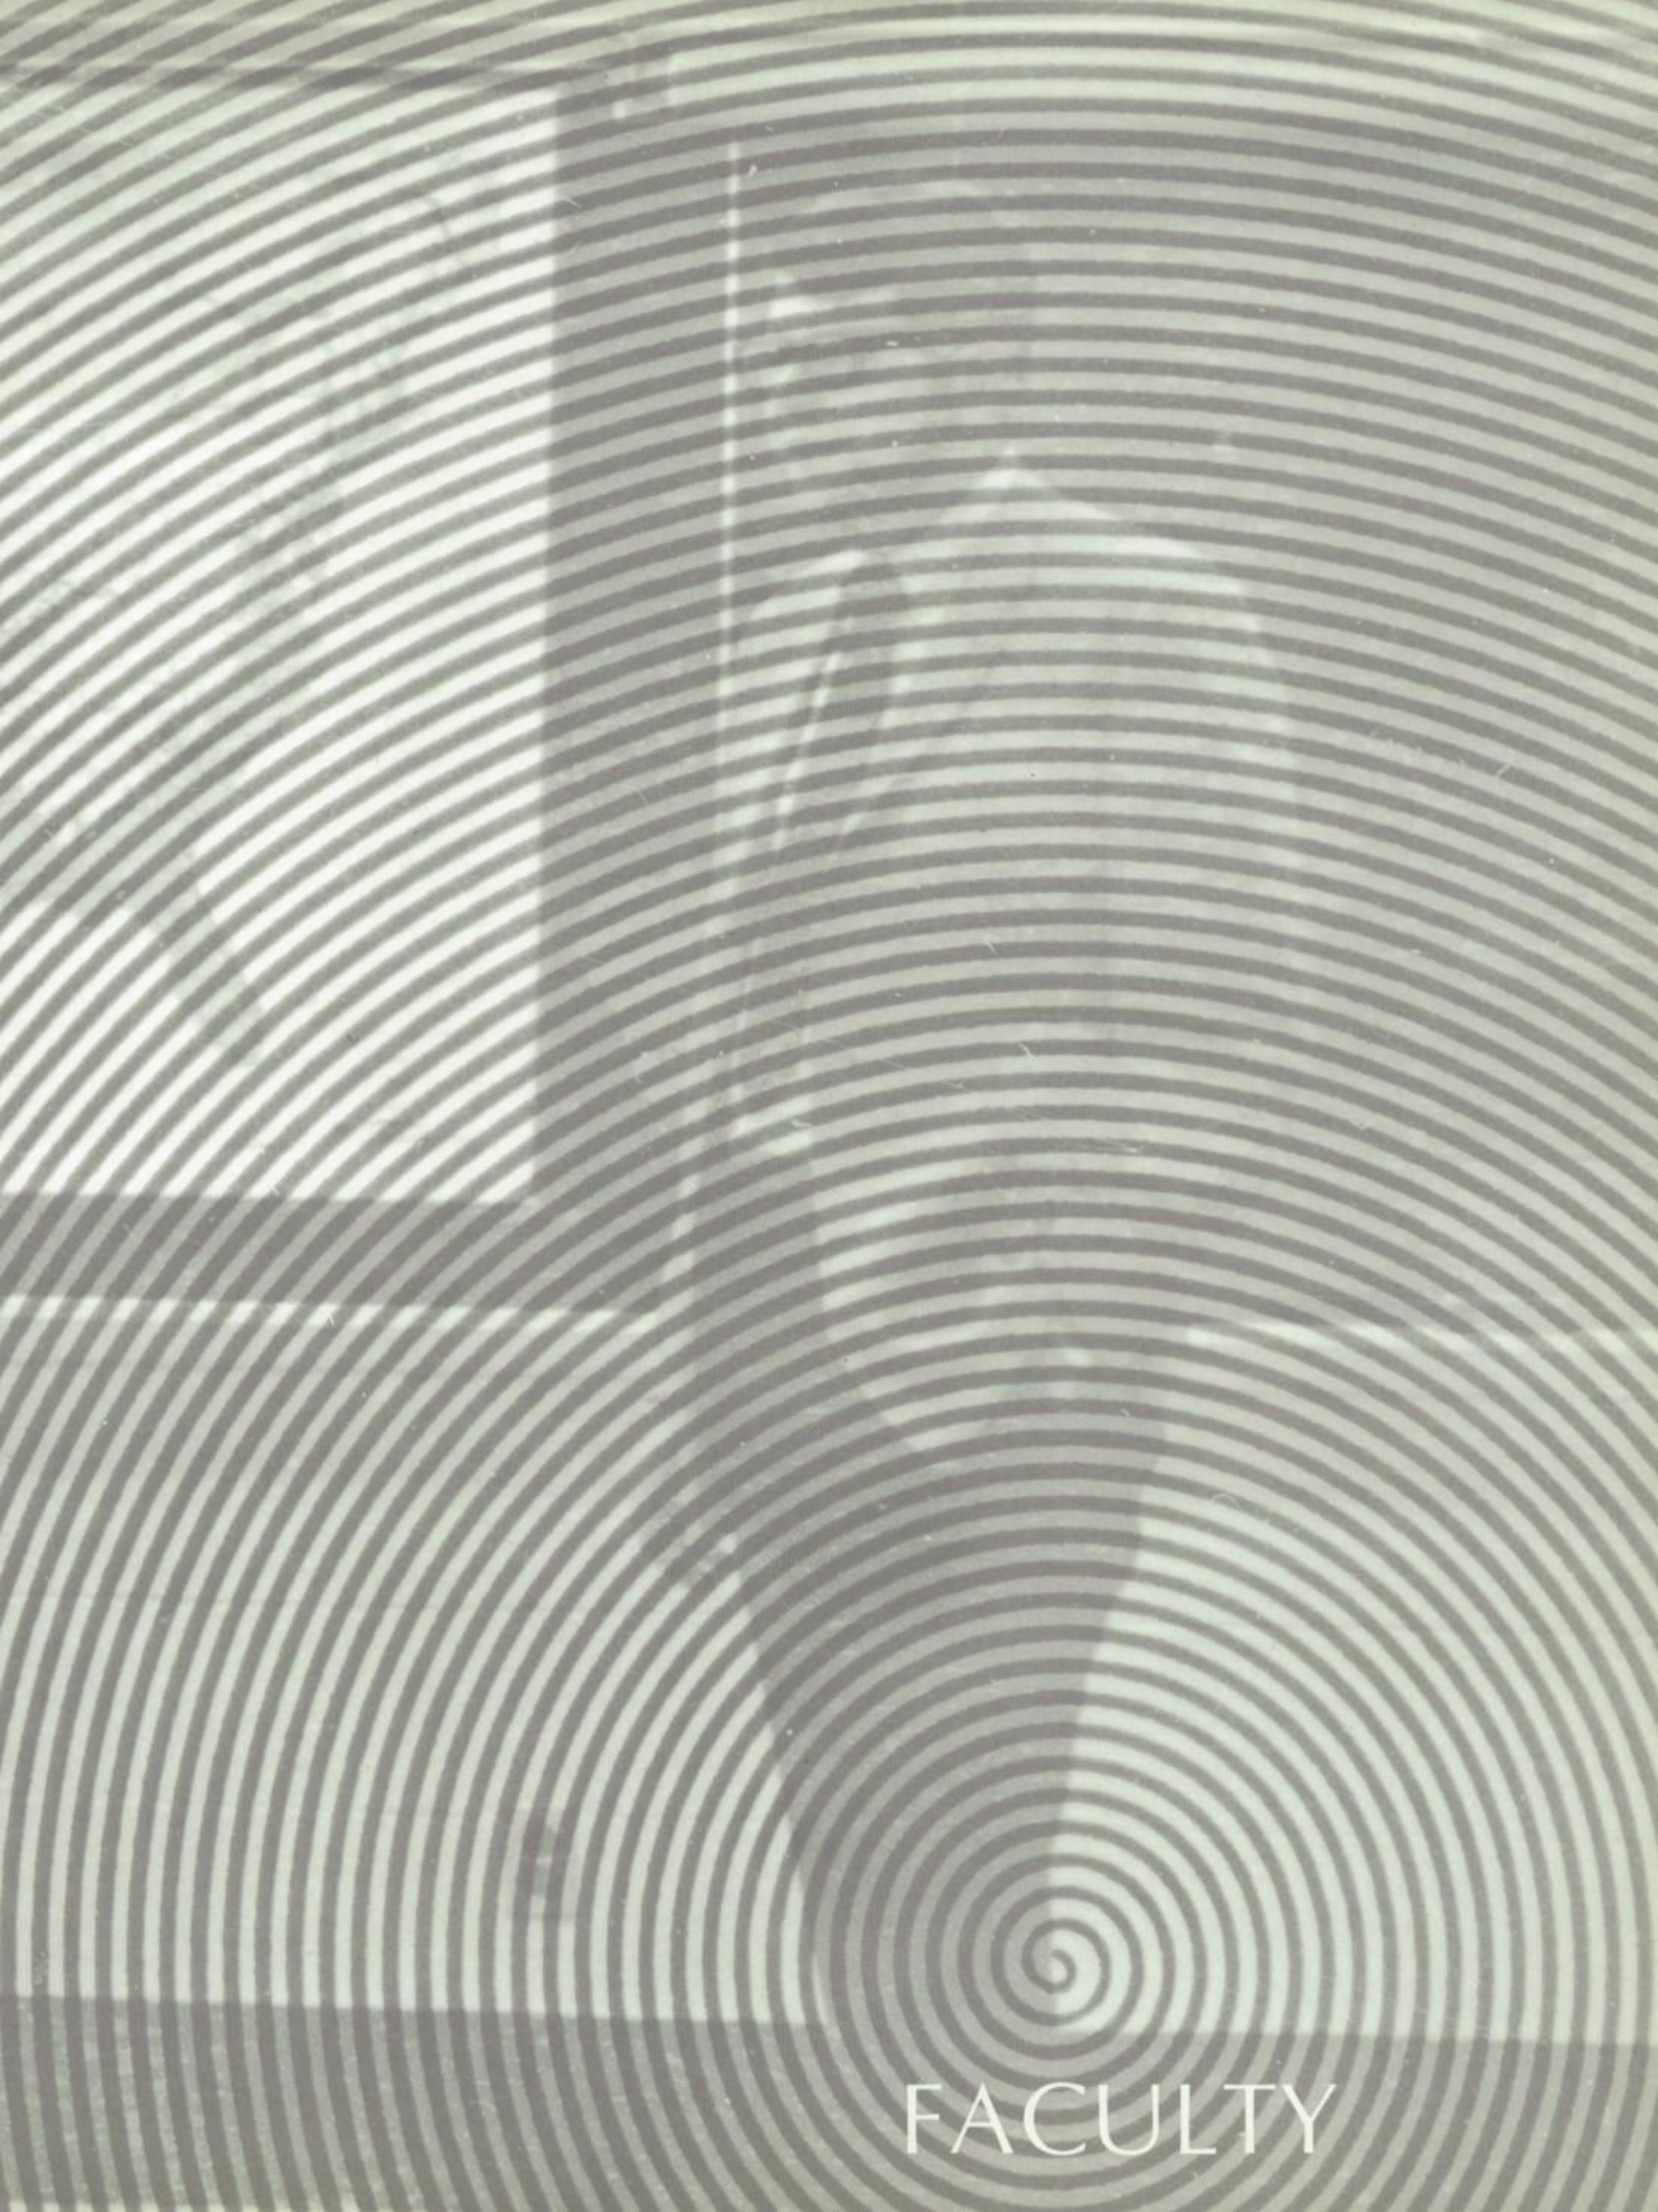

We, the class of 1970, hereby dedicate our yearbook to our teacher, our advisor, and our friend . . . Mr. Vear. His understanding, his patience and his wisdom have certainly aided those of us who have worked with him. Mr. Vear will always have an honored spot in our minds and hearts.

FACULTY

# ADMINISTRATION

Mr. Leonard McGinnis, Vice-Principal and Mr. Stanford Trask, Principal.

## TO THE CLASS OF 1970

Your class will be the first to graduate in the '70's, a decade that offers challenge to those of courage and faith, but despair to those of skepticism and doubt. Young people (under 25) are asking for change with a vigorousness never before shown by youth, but this in itself is not enough. Those who truly want to make meaningful changes cannot drop out nor tear down the present establishment because this will create only a vacuum in which nothing constructive can ever take place. Youth must enter the establishment as well prepared as possible and effect a change with the same kind of courage and purpose as the people who originally established this country, which is still the best in the world for people who believe in freedom for the individual.

## Senior Thesis

### I. Thoughts about the hereafter

(or . . . Is there a life after graduation?)

Seriously, graduation isn't the end, you know. It's just the beginning. And it could be the beginning of one of the most challenging and fulfilling times of your life. At New England Telephone.

It could be, that is, if you want a job with a challenge as big as your ambition. We need people at New England Telephone — all kinds. People who are sincerely interested in the future.

And who are looking for more from their job than just work!

Your starting salary is good and you get automatic raises.

You *don't need experience!* Your advancement is tailored to your talents. And you get excellent fringe benefits.

### II. See your Guidance Counselor

She'll tell you when and where you can apply for an interview to find out what the "hereafter's" like at
